IIC IMPACT E-LECTURE SESSION-2020-21 ON STARTUP on 13/06/2020

IIC in coordination with Department of ECE, SJCIT organized Impact E-Lecture Series for the Students and Faculties on the topic "**STARTUP**" on 13-06-2020. The detailed report of seminar is as follows.

Resource Person:

- 1) **Dr. Sathisha.H. K**, IP Specialist, Prior art and Science Domain

Seminar Details:

Seminar starting Date: 13-06-2020

The Total Number of Participants: 276

He discussed about the following topics in the Seminar.

- 1) **Startup:** The term startup refers to a company in the first stage of its operations. Startups are founded by one or more entrepreneurs who want to develop a product or service for which they believe there is a demand. These companies generally start with high costs and limited revenue which is why they look for capital from a variety of sources such as venture capitalists. Startups are companies or ventures that are focused around a single product or service that the founders want to bring to market. These companies typically don't have a fully developed business model and, more importantly, lack adequate capital to move on to the next phase of business. Most of these companies are initially funded by their founders.
- 2) **Funding:** Startups often raise funds by turning to family and friends or by using venture capitalists. This is a group of professional investors that specialize in funding startups. Crowd funding has become a viable way for many people to get access to the cash they need to move forward in the business process. The entrepreneur sets up a crowd funding page online, allowing people who believe in the company to donate money.

3) Angel Investor :

An angel investor is usually a high net worth individual who provides financial backing for small startups or entrepreneurs, usually in exchange for ownership equity. First and foremost, you need to have a good idea, something that people will use, love and won't be able to live without, something that will change their life for the better. As a startup, you probably don't have enough funds, however, you still need to grow and market yourself, and as we all know, you need investments in marketing as well.
