1. Introduction to Intellectual Property

- What is intellectual property? Intellectual Property is something produced using human intellect which has commercial value.
- Often intangible in nature, but usually contained on a tangible, fixed medium- paper, CD, computer chips.....
- What is Intellectual Property Right (IPR)?
- Not to be confused with IP, it is a right vested in the asset, not the asset itself ,e.g.an idea / invention is IP, a patent registration is an IPR,a customer / price list is IP, a right of confidentiality is an IPR, a secret production method is IP, a right to a trade secret is an IPR, a particular way of representation is IP, copyright or a design registration is an IPR a brand / trade name is IP, a trade mark registration is IPR

2. kinds of IPR

- **Patent:** Patent is an exclusive right granted by law to an inventor or assignee to prevent others from commercially benefiting from his/her patented invention without permission
- **Trademark:** A trademark is a sign that individualizes the goods or services of a given enterprise and distinguishes them from those of competitors. To fall under law protection, a trademark must be distinctive, and not deceptive, illegal or immoral.
- **Geographical Indication:** A geographical indication is basically a notice stating that a given product originates in a given geographical area.
- **Copy right-**To protect literacy and artistic work-the copy right act
- **Design-** To protect our ornamental configuration-the design act

3. Patent -- Procedure

- File an Application with Documents, Publication of the Patent application, Filing a request for Examination, Filing a pre-grant opposition by Interested Party, Examination ,Like non conformance removal replying to questions by Patent office, Objections to be heard Acceptance or Rejection communicated, Publication of Grant of the Patent, Filing of Post Grant opposition, GRANT of PATENT

4. Conclusions -The value of IP is an index of economic growth, The number of IPRs is an indicator of growth of Engineering / Technology (INNOVATION) hand in hand with ECONOMICS
