

SEED Activity Report

Name of the Event: “Type Setting using LaTeX”

Organizing Department: Electronics & Communication Engineering

Date: 9th to 11th September 2024

Venue: Tatung Einstein Hall, Dept. of ECE, SJCIT

Resource Person: Prof. Suresh Kumar H S, Assistant Professor, Dept. of CSE, SJCIT

Participants: 3th sem ECE, SJCIT

Participants Count: 180+

About the Event:

The workshop aims to help students:

1. Master the use of LaTeX for academic and technical writing.
2. Gain proficiency in creating well-structured research papers, reports, and presentations.
3. Learn how to efficiently handle complex formatting, including equations, tables, and references.

Outcome of the Event:

Here are two potential outcomes for the workshop:

1. **Improved Academic Writing Skills:** Participants gained the ability to create professional and well-structured academic documents, such as research papers, reports, and presentations, using LaTeX.
2. **Proficiency in Handling Complex Formatting:** Students are proficient in managing complex elements like equations, tables, and references, enhancing the quality and efficiency of their technical writing.
