

REPORT ON THE ORIENTATION SESSION CONDUCTED FOR 5th SEMESTER STUDENTS

On 11-10-2022 One day workshop on “LIVE SATELLITE TRACKING AND IT’S APPLICATIONS” was organized by the Department of Electronics and Communication Engineering at DHRITVAN Space Lab. The speaker of Mr. B A Subramani was Rtd. Station Director, Upagraha Amateur Radio Club, U R Rao Satellite Centre, Bangalore. The session was headed by Dr.B N Shobha Ma’am, Dr. Bhaskar S Sir, Dr. Levy M Sir, and Prof. Shreehari H S. The session started with a formal introduction about the speaker, and general addressing was done. The students were given a talk about the basics of satellite communication and live tracking of signals from the satellite was done. Then the session was then taken over by Prof.Shreehari H S. All the updates regarding the progress of the lab from the installation day were explained. A small question and answer session for about 10 minutes was held where students were keen on knowing the depth of the subject and the ways to be a part of the lab. The meeting ended with a tour of the milestones of the Indian Space Research Organization.
